The Chapter is excited to kick off the New Year by welcoming NECA Premier Partner, Federated Insurance, to host a Lunch & Learn. The two topics for the meeting will be on reducing risk and liability on you as employers. The topics presented by Federated Insurance are as follows:

Distracted Driving:

Not only is distracted driving a serious problem, it's an epidemic. With each new mobile device, the potential for behind-the-wheel distractions increase and so does your business's exposure to risk. This discussion will address how to implement a mobile device/driving policy at your company, educate your employees on this hazard, and introduce you to technology solutions that can aid you in restricting mobile phone use in vehicles. It's up to each of us to make ending distracted driving a priority. The lives of those who are important to us may depend on it.

Employment:

Surrounding employment issues can be daunting. This message is directed toward owners, managers, and human resources personnel, and offers resources to help avoid the pitfalls of employment actions. It specifically reviews necessary documentation, hiring practices, and termination procedures. It also includes additional available resources and tips to help prevent litigation.
